## **About me:**

My objective is to become a very good Full Stack programmer, I have a large experience in the JS Stack, my interest at the moment is to work in projects that uses React/JS , React Native, Typescript, node JS, so my biggest interest is to learn new technologies and become everyday a little better.

I am a Javascript expert also a I have experience with digital marketing, I already have worked in this group called APGInternet/Brascoob, where i used to work finding solution for web pages, I had to use a lot of html5, css, Javascript ESC6, bootstrap, wordpress and some other technologies, also I have a lot experience with a group called Rtsys Informatica located in Curitiba, Brazil where I used to be a FullStack developer working most of the time with Firebird DB, JS, C, C++

For more information you can take a look at my portfolio at:
